Professional Experience

Freelance

Toronto, Canada

Front-end Developer

10/2022 - present

- Designed and developed own portfolio website using **HTML, CSS**, and **JavaScript** to showcase projects, skills, and experience. Implemented custom animations using **GPAP** for page transitions and interactive elements to engage users while navigating through the site.
- Designed and built from scratch a custom personal website for a psychologist. Implemented responsive design techniques using **Bootstrap** framework to ensure compatibility across various devices.
- Created weather forecast application using **HTML, CSS**, and **JavaScript**. Integrated dynamic weather data using **APIs**. A notable feature is its ability to change background pictures based on the entered city, enhancing user experience.
- Developed a tip calculator web application with **HTML** and **CSS**. Featuring a user-friendly interface for bill input, tip selection, and bill splitting. Used **JavaScript** for dynamic calculations and error handling.
- Converted **10 Figma** designs into **HTML** and **CSS** projects, adhering to specific requirements. Utilized modern **CSS3** techniques for responsive design, ensuring optimal user experience across different devices.
