OLGA BORODCHAK

Front-End Developer

+16472181730 • olga.leonovna@gmail.com • linkedin.com/in/olga-borodchak • www.curlycoder.ca • Toronto

Summary

Driven front-end developer with a strong foundation in HTML, CSS, and JavaScript, focused on building end-to-end user-facing products that enhance discoverability, engagement, and personalization. Collaborates with UX Designers to ensure accessibility for all users. Proficient in staying current with modern technologies to ensure that products remain scalable and performant. Skilled in integrating API endpoints and maintaining smooth functionality across UI/UX. Adaptable to new technologies and comfortable working in agile, iterative environments, emphasizing empathy and understanding diverse perspectives in design.

Experience

Freelancer   Toronto, Canada

Front-end Developer   10/2022 - Present

- Planned and developed a personal portfolio website using HTML, CSS, and JavaScript to showcase 6 projects, skills, and experience. Utilized GSAP to implement custom animations for seamless page transitions and interactive elements, increasing user engagement and improving navigation flow.
- Collaborated with a designer to develop the commercial website, utilizing HTML5 and CSS3 for timely project delivery. Designed and implemented an interactive layout using HTML, CSS, and JavaScript to enhance user experience. Optimized videos and images, ensuring compliance with cross-browser compatibility and accessibility.
- Designed and built a custom personal website for a psychologist from scratch, utilizing responsive design techniques with the Bootstrap framework to ensure optimal compatibility across various devices, achieving 99% client satisfaction.
- Created a weather forecast application using HTML, CSS, and JavaScript that integrates dynamic weather data using APIs and changes background images based on the entered city, improving user experience and contributing to higher retention rates among first-time visitors.
- Developed a tip calculator web application using HTML, CSS, and JavaScript, featuring a user-friendly interface for bill input, tip selection, and bill splitting. Implemented dynamic calculations and error handling to enhance functionality and user experience.
- Converted 10 Figma designs into HTML and CSS projects, adhering to specific requirements. Utilized modern CSS3 techniques for responsive design, ensuring optimal user experience across different devices.
